I'm Ju-cheol Park, a web and mobile developer. I build interfaces with React and TypeScript and have also worked on APIs and mobile integrations.

Experience

Triphos Co., Ltd.

2026.02 ~ Present

Web & Mobile Developer

Built the settlement ERP across React interfaces, Spring Boot APIs, and database processing. Developed logistics screens and the complete React frontend for stock administration using MSW mock APIs.

- Reduced the initial JavaScript entry by about 74% through lazy-loaded pages and Excel code, measured by build output size.
- Implemented keyboard navigation, retained drafts, and Excel preview/save flows in the ERP, preventing duplicate finalization and partial saves.
- Built shared tables, filters, and modals with MSW mock APIs, separating query data managed by TanStack Query from UI state.

TIS

2022.06 ~ 2022.07

University Intern / University internship / planning and data automation

- Planned factory energy management screens in Figma and documented database tables and an ERD.
- Analyzed the KEPCO Power Planner and wrote a Python crawler to collect energy data.

Projects

C. Donghae

2024.10.04 ~ 2024.10.06

Frontend developer / team of three

Built a map-based web service for Donghae Line passengers to find live transport and nearby information.

- Worked with two backend developers using Swagger documentation to connect APIs and build the main Google Maps screens.

Projects (continued)

ShareBBy

2024.04 ~ 2024.06

React Native and Firebase development

Developed Android support and community features for an app that helps people share hobbies and find companions.

- Built post and comment editing, location filters, sorting, pull-to-refresh, and infinite scrolling.

Posture Teacher

2022.07 ~ 2023.05

Android developer / team of two

An Android app that classifies posture from body landmarks in camera frames and records exercise time.

- Built a MediaPipe AAR on Ubuntu and used landmark angles and lengths to classify posture and measure hold times.

AI Agent Playbook

2026.06 ~ Present

Solo developer

A personal developer tool combining a CLI, skills, templates, and checks to carry project rules and history across agent sessions.

- Separated reusable skills and templates from repository-specific project memory.

Skills

Languages	Web
TypeScript, JavaScript, Java	React, Next.js, Vite, TanStack Query, Zustand
Mobile / hybrid	Testing / monitoring
React Native, Expo, Android, Gradle	Vitest, MSW, Storybook, Sentry
Tools & Data	
GitHub Actions, Jenkins, Docker, MariaDB, SQLite	

Education

Gyeongsang National University / Computer Science

Graduated 2023.02

GPA 3.64 / 4.5

Programmers Devcourse

2023.12 ~ 2024.05

Cloud Application Engineering, React and React Native

Awards

DIVE 2024 Global Data Hackathon

2024.10

Busan Technopark President Award / third in the challenge track

Gyeongnam Software Competition

2021.10

ESD HotDeal / Top Excellence Award
